- **Metal free** toe-cap = lighter
- The cap's thickness is reduced to 6,5 mm **35% less** weight compared to the market standard weight.
- Equipped with a perfect pre-shaped protective stripe to avoid the painful pressure on toes.

LifePlus for double-density PU / HRO rubber sole

Life Plus is a technology developed by Base Protection to improve **grip** and **outsole resistance** in workplaces characterized by the constant presence of water. The life cycle of the shoe lasts longer.

The sole is suitable for activities on rough and uneven surfaces, more exposed to stress: construction sites on rivers, great works, shipyards, forests, agriculture, mining. The special compound, softer but with hard rubber particles, make it particularly suitable for ice
